SUMMARY

Full-stack software engineer with 2 years and 7 months of professional experience building scalable web and cross-platform mobile applications. Works mainly in TypeScript, Next.js, React, Node.js, NestJS and PostgreSQL, with hands-on Flutter and Dart experience for mobile. Builds backend services, REST APIs and responsive interfaces, and handles deployment and hosting. Actively works with AI and new technologies to build smarter, modern products.

TECHNICAL SKILLS

- Frontend: TypeScript, Next.js, React, Tailwind CSS
- Backend & Data: Node.js, NestJS, REST APIs, PostgreSQL, Prisma, Firebase
- Mobile: Flutter, Dart, Provider, Go Router, Hive, SharedPreferences
- AI & ML: Python, PyTorch, Prompt Engineering
- Tools: Git, GitHub, Vercel

EDUCATION

BEng (Hons) in Software Engineering with Industrial Placement

Jan 2023– Aug 2026

University of Westminster

- Graduated with Upper Second Class Honours

WORK EXPERIENCE

Azbow (Pvt) Ltd | Junior Software Engineer – Full Stack

May 2025 – Present

- Develop full-stack applications end to end, from Flutter mobile apps and Next.js/React web interfaces to Node.js/NestJS backend services, REST APIs, and deployment.
- Integrate AI features into products and use AI tools to speed up development and improve code quality.

Azbow (Pvt) Ltd | Software Engineer Intern – Mobile

May 2024 – May 2025

- Completed a one-year internship during my third year of university, specializing in mobile development.
- Developed, tested, and released cross-platform mobile apps using Flutter and Dart, and maintained them after launch.

KEY PROJECTS

Mosam Sujeewa Prasannaarachchi Mobile App – Mobile Developer

[PLAY STORE](#)

[APP STORE](#)

- Built a cross-platform app in Flutter with authentication, API integration, payments.
- Handled development, testing, and release on Google Play and the App Store, plus post-launch maintenance.

Bhawana Mobile App – Mobile Developer

[PLAY STORE](#)

[APP STORE](#)

- Built a cross-platform app in Flutter with authentication, API integration, payments.
- Published to Google Play and the App Store, and shipped ongoing updates and bug fixes.

Classmate web App – Front-end web Developer

- Built the web app and admin dashboard for a UAE-based platform using React and TypeScript, with full Arabic (RTL) support.
- Designed REST APIs with authentication and role-based access for managers and team members.

Creative sheduler web App – Back-end Developer

- Built a NestJS backend for managing digital and creative team members, covering scheduling, task assignment, and workload tracking.
- Designed REST APIs with authentication and role-based access for managers and team members.
